CUTTERS BEING RUSHED TO CAROLINA COAST

(Special to The Herald)
Washington, April 8.—With the Atlantic coast strewn with wreckage as the result of the recent storm, the entire fleet of four coast guard cutters in the Atlantic has been rushed to the coast of North Carolina to assist in saving life and property.
Eight vessels are known to be in distress off Cape Hatteras, Diamond Shoals and Prying Pan shoals. Meagre wireless dispatches received at coast

guard headquarters here from the cutters give hints of heavy loss.
Two 500-ton three-masted schooners, the Alice Murphy, and the Lizzie D. Wiley, both owned by Dunn and Elliott, of Thomaston, Me., came to grief on the same day. The Alice Murphy is reported capsized off Diamond Shoals, and the Lizzie D. Wiley is waterlogged and helpless not far from the shoals.

BATTLE FRONT OVER ONE HUNDRED AND TWENTY-FIVE MILES

Russians Making Steady Gains Against Austro-German Forces in the Car- pathians in Their Attempted Invasion of Hungary

Allies Bring Down German Aeroplaine Af- ter An Air Raid in Flanders

(Special to The Herald)
Petrograd, April 8.—Austrian guns captured by the Russian forces after the fall of Przemyel are being turned against the Austro-German army in the Carpathian mountains with fearful results to the enemy. Great stores of captured guns and ammunition are being transported by the Russians to the Carpathian front where a mighty conflict is raging over a 125-mile front. Talking football after football on the Hungarian slope of the Carpathian mountains the Russians are advancing slowly but surely, the attacks alternating between furious bombardments with heavy mountain guns and smashing charges and attacks with the bayonet.
The Russian forces are now fortifying the principle heights of the Beskid range, which they captured after three days of bloody fighting.
It is estimated from official and unofficial reports received from the front that the Austro-Germans in the

Carpathian arena of operations have lost from 125 to 130 thousand men killed, wounded and captured since the present campaign in the mountain ranges began. The Russian loss has also been very heavy. This big loss is due to the fact that the Czar's soldiers are compelled to expose themselves to a ravaging fire in storming the fortified Austrian positions.
In an official statement received from field headquarters at the war office here today said that the German attempts to break through the Russian forces at the Rostovka front have ceased.
The fall of the Austrian stronghold of Przemyel has proved to be of immense help to the Russians in their attempt to invade Hungary. The enemy is putting up a wonderful but useless defense. German and Austrian commanders are beginning to realize that the Russian advance cannot be stopped and they now admit that Przemyel was the key to the situation. Its fall marked the beginning of the invasion of Hungary.

Two persons were killed and several seriously injured.

PRINZ EITEL IS TURNED OVER TO UNITED STATES

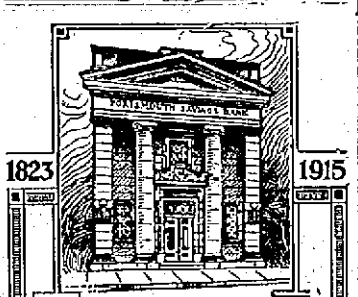

Newport News, April 8.—The career of the Prinz Eitel Friedrich as a sea raider is over and the German auxiliary cruiser has been formally turned over to the custody of the United States Government. The work of removing the connecting rods of the engines will begin at once to prevent any attempted escape of the German vessel.
The first act of Capt. Thierichens was to surrender to Commander McCracken of the U. S. naval tug Patuxent the three Germans who joined the crew of the cruiser since the Eitel eluded this port. Admiral Hahn was wired the navy department at Washington making a report of all the developments in the case up to date. He also asked Secretary Daniels for any further instructions he desired to give.

The Broad Way Leads to Goodyear Tires

Try it a little while. It has carried some 400,000 motorists to the haven of content. It is traveled by more users than has any other tire. That has been so for years.

We can't win you to Fortified Tires by asking you to try them. The tires themselves must win you.

But our plea is that you should try the tires that countless men found best. There must be a reason as you know, why Goodyears dominate like this. Last year men bought about one Goodyear for every car in use.

Men Like You

This Goodyear army is composed of men like you. They want quality, safety, endurance. They want trouble-saving and low cost per mile.

Goodyears best met these wants. They met them because they are Fortified Tires.

In five costly ways, employed by no other maker, they offer unique protection. They combat five troubles—rim-cuts, blowouts, loose treads, punctures and skidding—as is done in no other tire.

Price Reduction

On February 1st we made another big price reduction. That makes three reductions in two years, totaling 45 per cent.

Today Goodyears, more than ever before, offer you most for the money. They offer you the utmost possible in tires, measured

by cost per mile. Doesn't their top place prove that? The following Goodyear Service Stations will supply you:

NEWCASTLE CITIZEN A SUICIDE BY DROWNING

John Amazeen, a well known citizen of Newcastle, committed suicide on Wednesday evening by jumping overboard.

Mr. Amazeen has been suffering of late with an incurable growth and he has been greatly discouraged. Wednesday evening he cleared up about his house, and then about eight o'clock walked to the wharf near his home. He got out, and the body was recovered.

ed, caught in the timbers of another wharf, about twenty minutes later, but he was dead.

Medical Referee A. B. Sherburne was called and after a view turned the body over to relatives.

Mr. Amazeen was 72 years of age and a native of the Island town. He has been employed for some years on the navy yard, but has been ill for the last year or more.

He leaves a sister, Mrs. Sherman on South street, and a brother, Henry Amazeen, a shoe manufacturer of Milwaukee.

ETHEL STILL AT NEWPORT NEWS

Washington, April 7.—Commander McCracken of the naval tug Pawluxent, on guard over the Prinz Eitel Friedrich at Newport News, was quoted here this afternoon as announcing he would fire on any vessel passing within 200 yards of the Eitel at night without full running lights. At the navy and treasury department it was said this attitude was approved.

He is not even thinking about internment of the Prinz Eitel Friedrich now, declared Collector Hamilton today after he had waited expectantly through out the night for the German cruiser to leave this port. As the collector spoke, he was preparing to again visit the ship on orders from Washington, although he had said farewell to Capt. Theirichsen and members of his staff last night.

One indication the Eitel had not been interned early today was the continuation of the ban on departure of merchant ships of the allies. Officers and men of the Eitel had no shore leave today.

YOUNGER GIRLS' PRESENTED PLAY

"A Pan of Fudge" Scores Success at Girls' Club.

The Portsmouth Girls' Club again made merry on Tuesday evening and entertained their mothers and friends by a very pleasing little play. This was in charge of the Junior girls, who wanted to do their share toward helping the club financially.

There was a large attendance who braved the elements and felt well repaid for their coming.

The following are the numbers presented:

Vocal Solo, "When the Stars Kiss the Day Goodnight" Miss Margaret Peavey

Miss Alice Slosberg accompanied

Piano Solo Miss Cecelia Ham

Reading Miss Jennie Cooney

Piano Solo Miss Teresa Brooks

Then the little play "A Pan of Fudge" was presented by the following cast:

Bettina Spencer, A Senior Alice Slosberg

Pauline, her roommate Lena Cohen

Elizabeth, her chum Ellen Coughlin

Mamselle Duple, the new French teacher Margaret Peavey

Rita and Nita, twins Gertrude Perry and Dorothy Twombly.

It was a comedy in one act written by Maude Burbank Stines, who was latter Mrs. Robert Harding of this city.

Time, the present.

Scene, Study Hour in the evening in Bettina's room.

The corner of the room was partitioned off into a stage where a very pretty scene, that of a college girl's room, was arranged. The pennants, and banners, pictures and trophies of the usual girls' room in the dormitory were conspicuous. The books, chattering dish comfortable chairs and couch presented a very cozy scene.

The furniture was loaned by Marge-son Brothers and Mr. B. Howard Roberts was in charge of the lights.

The girls all deserve much credit for their good work in presenting this little play. Misses Hope Wallden and Alice Ryan were coaches of the play and Miss Esther Slosberg acted as general manager of the affair.

A candy booth filled with home made candies fancy and useful articles was in charge of Miss Eleanor Craig. Again the club has scored a success.

GRANGE FAVOR SUPERVISION BILL

At a meeting of the Greenland Grange held on Wednesday evening they went on record as supporting the compulsory supervision of schools bill, now before the legislature. The bill was passed by the Senate and defeated Tuesday in the House by seven votes. A motion to reconsider the vote was taken on Wednesday and the bill comes up again for vote today.

Representative Holmes of Greenland voted against the bill Tuesday and Wednesday evening the Greenland Grange passed the following resolution addressed to Rep. Holmes:

"The Greenland Grange strongly urges you to support the compulsory supervision of school bill."

NO MOTION PICTURES OF FIGHT

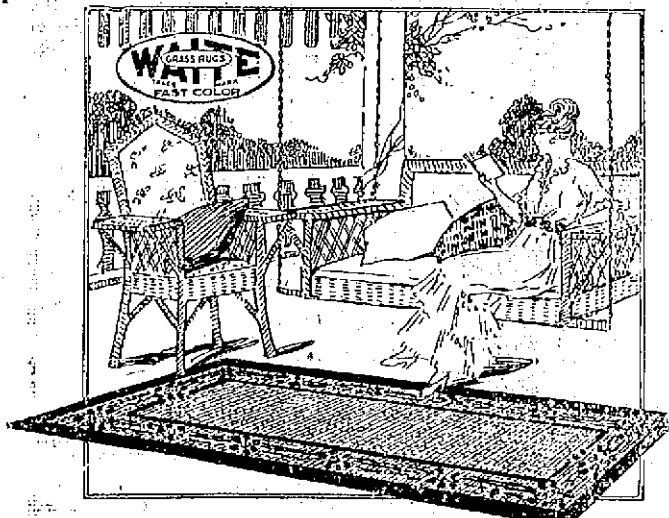

Washington, April 7.—Persons who had hoped to see the Willard-Johnson fight in motion pictures will be disappointed. It was recalled here today that a Federal statute expressly forbids not only the interstate transportation of fight films but the importation of such films from foreign countries. It provides a fine of \$1000 for each offence.

The law was passed by Congress on July 31, 1910, twenty-seven days after the Johnson-Jeffris fight at Reno, Nev., and resulted from fears on the part of many members of Congress, especially from the south, that race riots would follow attempts of the promoters to show the fight in the "movies."

Tobacco That Comes To You Cut Up, Comes Dried Up

Real tobacco flavor depends upon the leaf being preserved in its natural state, possible only by pressing the leaves into plug form and keeping it in by covering it with a natural leaf wrapper. The natural flavor and strength of tobacco escape when cut or granulated.

Take a Plug of Sickle that is even thoroughly dried out so that when you whittle it off it crumbles into dust, but it will burn and smoke smooth and cool as it has all of its original tobacco flavor preserved, unevaporated in Plug Form.

Whittling a pipeful is little trouble, amply repaid in both quality and quantity. Try this experiment and judge for yourself.

Joking With Firearms.

Altogether too frequently come reports of fatal shootings with guns and revolvers supposed to be not loaded. One of the latest comes from Vermont, where a few days ago a girl of 12 years shot her 10-year-old sister through the heart, killing her instantly. The girl who did the shooting was playing with her father's rifle and, of course, "didn't know it was loaded." With the innocent intent of merely scaring her little sister she aimed the gun at her and pulled the trigger, and the awful deed was done.

It is an old, old story, and the pity of it is that tragedies of this kind are not confined to the ranks of children. Grown people, who ought to know better than ever to point a weapon at any one, whether it be loaded or empty, take life altogether too frequently in attempts to have a little sport with guns or pistols which they believe to be not loaded. Such killings are the most pitiful of tragedies, the victims in practically every case being close friends or members of the families of those who do the killing.

In view of the frequency and needlessness of such happenings it would seem to be time for the public to wake up to the need of two things. In the first place, firearms of all descriptions should be kept scrupulously beyond the reach of children; and, while about it, the toy gun might well be eliminated, for much injury of a serious character is done with that. In the second place, boys, most of whom are expected to use guns when they reach a proper age, should be taught never to allow the muzzle of a firearm to be pointed toward themselves or any one else, no matter how certain they may be that it is not loaded. Such a precaution insisted upon in early life becomes a habit, and one that insures against the murderous "joke" of the "didn't know it was loaded" brand.

These two precautions are simple, and people of mature years and ordinary intelligence should insist upon them. Joking with firearms is no joke, and it should be rigidly suppressed whenever attempted. But prevention is the proper thing; and the right sort of teaching would prevent the great majority of these terrible happenings. For some unaccountable reason it is as natural for a child to point a weapon at some person as it is to pick it up when one is found within reach, and there are too many crack-brained adults who are equally foolhardy. It is a trouble that can not be remedied by law. What is demanded is the exercise of common sense and common precaution. It is high time that this remedy should be applied.

The government is out with a sharp stick after those who attempt to defraud it in connection with the oleomargarine business. There is a heavy tax on the colored product, and two Rhode Island men for conspiring to defraud the government of this tax to the amount of \$400,000, have been sentenced to one year in prison and to pay fines of \$1,000 each. A few such sentences should put an end to this form of thievery, and it is a pity that the laws cannot be as rigidly enforced in some other directions.

Hereafter until further notice teetotalism will be the rule in all the royal households of Great Britain, King George having led the way. And as the working people say that what is good enough for the king is good enough for them, it is apparent that there is a dry time ahead, though it is to be doubted that true temperance will be greatly or permanently advanced by such a step, merely as a war measure, in England or any other country.

E. W. Chafin, once a presidential candidate of the prohibition party, has written to President Wilson urging him to call a special session of Congress prohibiting the manufacture and sale of intoxicants in the United States, but it is not probable that the president will do anything of the sort. He has about as much on his hands now as he can comfortably attend to without plunging into a national prohibition movement.

The attempt of the government to unearth at Chicago a conspiracy to advance the price of wheat has thus far failed. Conditions have been such as to encourage wild speculation in the staff of life and there have been plenty to engage in it, but the conspiracy charge is apparently not to be substantiated. Meanwhile it is a great year for the farmers.

The authorities in charge of the campaign against the foot and mouth disease are now blaming cats and dogs for the spread of the malady. But didn't they announce only a short time ago that the disease had been stamped out? The misfits in this campaign should not be permitted to take shelter behind cats and dogs.

There is one clergyman in the Massachusetts legislature, and on Monday he missed two rollcalls by absenting himself to watch the prize-fighting bulletins. And yet the people will continue to be reminded of the necessity of placing "men of character" in their legislative halls.

CURRENT OPINION

The Money Spent on Armies Should Be Devoted to Destroying Disease Germs.

Our awful enemies, the elements and germs and insect destroyers, attack us every minute without ceasing, yet we murder one another as if we were out of our senses. Think of what humanity could obtain if the five billion working days that are spent every year in displacing boundary lines could be devoted to fighting our worst enemies, the noxious species and our hostile environment.

Our vocabulary and our spirits have been softened too much. We speak of "public service" and "doing good" when we ought to be talking of war and fighting evil. We ought to put on our armor and not take it off till we put on our shrouds.

I would have the conservation of health and the direction of education conceived of as functions of the war department scientifically and austere administered for the common good.

If you say that this is all utopian and that without war, as we now see it, we cannot foster courage and honor I have but to point to General Goethals, who has divided the continent, and to General Gorgas, who kept away hostile diseases while this Hercules was at work.

Still we have taxed ourselves for schools as Europe is taxing herself for wars, we shall not have done too much.—By Dr. John H. Finley, New York State Commissioner of Education.

Concord, April 7.—The Merrimack county grand jury completed its labors at noon today. On the coming in of the court this afternoon it handed down 39 indictments. Among them are the following:

John Stewart, Tilton, murder; Ignace Silver, Franklin, assault with intent to kill; Albert Strug, Franklin, assault with intent to kill.

The respondents will plead tomorrow morning.

PEOPLE'S OPINIONS.

A Muster or a Reunion

Editor Portsmouth Herald:

I have been very much interested in the numerous articles appearing in your valuable paper during the past few months in relation to a Fireman's Muster for Portsmouth sometime during the coming summer. Every fire-

man should thank you for the support you are giving the proposed muster and I for one, hope you will be successful in securing the big event for Portsmouth. Of course it means an expenditure of about \$1000, but what is this when one considers the amount of money the visiting firemen leave in our local stores during their short stay in our city. If I remember right the merchants were well satisfied with money that was left in their pockets as a result of the last big muster in this city. In connection with the proposed muster, I want to suggest a reunion of the members now living of the once famous Garibaldi Hook and Ladder Company, No. 1 whose house was on Court street. This was one of the famous hook and ladder companies of its time and if a reunion could be brought about, it would be a big feature of the muster program. George W. Green was foreman of the original company and he is still alive to assist in whatever arrangements may be made.

Any word that your valuable paper may say in connection with this event will be greatly appreciated by every good fireman. Let us have the Fireman's Muster, but if that is impossible why not make a gala day of the reunion of these old fire fighters of the Garibaldi Company.

"THIMBLE BEE."

Graffort Club Held Sewing Afternoon for Hospitals at Y. M. C. A. Wednesday.

The Graffort Club held a "Thimble Bee" at Association Hall, Y. M. C. A. Building on Wednesday afternoon and evening and devoted their time to sewing for the hospital. This day is observed each year as Home Day and a great deal of sewing was accomplished including towels, napkins and bed linen. A delightful entertainment was presented by club members during the afternoon and included the following numbers:

Piano selections—Mrs. George H. Post Talk on the subject: "Tours in France a Year Ago".....Miss Frances Mathers Vocal solo.....Mrs. Thornton Weeks There was a large and beautiful exhibit of work in the art needlework department this year, including basketry and beadwork, and many exquisite pieces of embroidery.

There was also a fine exhibit of oriental rugs attended by the Persian, Mr. Shadrack Karam, who is at the Y. M. C. A. Building, soliciting orders.

At one end of the hall three tables were stationed, elaborately arranged with cut glass, silver and chafing dishes. Jonquills added much to the beauty of the tables.

A chafing dish lunch, fruit punch and fancy wafers were served.

The hostesses were Mrs. William P. Mitchell, Mrs. Meyer P. Alton and Mrs. Daniel W. Badger and the ladies who presided at the nine chafing dishes were Mrs. Laura Sumner, Mrs. P. E. Dunfield, Mrs. Herbert Taylor, Mrs. E. T. Jenkins, Mrs. R. S. Hannaford, Mrs. W. P. Clark, Mrs. Sonnerby, Mrs. Adams and Mrs. Barry K. Torrey.

This was one of the most delightful events on the club calendar and is equal to "Guest Night."

This day is always anticipated by the members. There was a very large attendance. All agreed that this was the most pleasant "Thimble Bee" held.

THE CELEBRATED FRANKLIN CAR

The man who best appreciates the Franklin is the man who has owned and operated another car—any car. He has a basis for comparison.

The determination of buyers to face the facts and get the figures has made the Franklin the fastest selling fine automobile in America.

Engine and Vehicle Patented July 2, 1903.

Weight 2750 Lbs., 4 1/2 in. tires—Price \$2150.

In these days of standardization automobiles are known in classes—namely: Cheap, Common, Good, Fine, Splendid and Luxurious.

THE FRANKLIN IS DISTINCTIVELY THE FINE AUTOMOBILE

The Franklin today represents the most difficult of all engineering achievements—the attainment of scientific light weight, simplicity, and easy-riding qualities, in a luxurious five-passenger touring car that costs less to maintain than the cheapest car made.

Automobile users everywhere have seen the U. S. Government's report showing the cost of operating a Franklin car in comparison with other makes.

The Franklin DIRECT-AIR-COOLING SYSTEM does away with all useless complications—eliminates radiator leaks—frozen plumbing in the winter and the trouble and annoyance of boiling water in hot weather. In the recent engineers' test at the Mason Laboratory of Yale University, not only was the fuel mileage cost of the Franklin the lowest of any car tested, but under the strenuous conditions of the test, during the fastest runs and the heaviest pulling, the engine could not be overheated.

Get the facts from disinterested sources before buying a new automobile.

The P. A. C. minstrels come to Portsmouth Theatre next Monday and Tuesday evenings with the biggest, brightest and best show they have ever given. Both the musical and the fun "action" will be better and more pretentious than those of last year, and the performance given last season was conceded the best one they had ever given. From the rise of the curtain on the gorgeously costumed performance, sixty-five in number to the fall of the final curtain on a thrilling and sensational acrobatic act in which the laws of gravitation are defied, meritorious features follow each other making in their entirety an eminently perfect and pleasing production of modern minstrelsy and vaudeville.

QUALITY IN THE MAKING

Two artists using the same paints and brushes achieve results that differ widely. One produces a masterpiece, the other an ordinary picture.

There are Pianos and Pianos

Given the same materials and one maker will turn out merely commercial piano, the other an art product. The

CHICKERING PIANO

is sold solely upon its merits as an artistic instrument. In tone, action and design the unmistakable stamp of quality is apparent alike artist and amateur.

Those who have owned Chickering Pianos for years are their enthusiastic admirers. Is not this significant? Let us show you

MOSES DEADLED THE GRAND MARCH WITH
CHARLES DICKENS AT GREAT
BOZ BALL.

Mrs. Elizabeth Mills Moses, one of the oldest if not the oldest, resident of this city died suddenly on Wednesday afternoon at the home of Mrs. W. R. Weston, 210 Cabot street. At the time of her death arrangements were being made for her entering the Mark H. Wentworth Home.

Mrs. Moses was born in New York, Sept. 12, 1820, the daughter of Mr. and Mrs. George Mills, and her education was gained in that city. On Feb. 13, 1842 Mrs. Mills attended the "Great Boz Ball," held in the Park theatre, New York, with Horatio Bartlett, then editor of the New York Sun. Mr. Bartlett introduced Charles Dickens in whose honor the ball was given to her, and she was accorded the honor of leading the grand march with the noted author. She also danced that evening with Horace Greeley.

She often spoke of Dickens as an agreeable companion. She recalls that there were 150 floor tickets at \$25 each issued for the ball, each admitting a gentleman and lady. Dickens said there were something like 3000 in attendance. The ball was handsomely decorated in American and British colors.

Among the interesting reminiscences Mrs. Moses tells is one of Cornelius Vanderbilt. He then lived on Staten Island and made his living by marketing the products of his farm and garden. It was before he had started on his road to wealth.

One morning he told Mrs. Moses father of three lots of land on West 22d street that were in the market, and

proposed that they look at them. The
result was that Vanderbilt bought two
and Mr. Mills one of them. This was
the starting point leading to the sub-
sequent successes of the great finan-
cier. Mrs. Moses' brother John was
afterward a friend of William K. Van-
derbilt.In 1813, the year following the fam-
ous "Boz" ball, she married Capt. Edward
Moses, then in the merchant marine,
but subsequently, in 1822, a captain in
the U. S. Navy serving under Admi-
ral Dupont, Capt. and Mrs. Moses
came to this city in 1823, and Mrs.
Moses has since made her home here.
She has had four children, two sons
and two daughters, and the two daugh-
ters are still alive. Mrs. M. Augustus
Arnold of this city and Mrs. Leake
Mills of New York. She also leaves
four grandchildren and seven great
grandchildren.

ELIOT

On Thursday last the household ef-
fects of the late Mary Ann Swasey of
South Berwick were sold at auction.
Mrs. Swasey was a former resident of
Eliot.The funeral services of Mrs. Mar-
tha J. Merrill were held at the Con-
gregational church at two o'clock on
Saturday. There were many pres-
ent. The floral tributes were many and
beautiful. Rev. M. V. McAllister had
charges of the services which were
very fitting and impressive. Burial
was in Holt Hill cemetery.Mr. George Kennard has returned
to Eliot after passing the winter in
Boston.The death of Miss Mabelle Moore
of Kittery has brought sadness to
many hearts. She was born in Eliot,
her parents being Mary Cashman
Pratt and Luther Jenkins. At an
early age she was left an orphan, and
adopted by Mr. and Mrs.
Perry Moore of Kittery and
reared as their own. In re-
cent years she has been a frequent
visitor in town and made many friends.
Much sympathy is expressed for Mr.
Moore. Since the death of his wife,
Miss Moore has been his only comfort
and hope in his declining years. Two
sisters, Mrs. Ida Paul of Eliot and
three brothers survive. The funeral
was held Tuesday afternoon.Mr. Silas Planders of Amesbury
was in town recently, a guest of Mrs.
George A. Bartlett.During the gale on Saturday after-
noon a fire broke out in the pasture
of Dr. Willis, near Staples' bridge,
presumably set by a passing locomotive.
Every trackman who could be
corried in short order, between North
Berwick and Portsmouth was hustled
by motor car to the scene. For a few
moments it looked like a stubborn fire.One of the wildest storms of the
season raged Saturday and Sunday
night, possibly a twentieth century
slang phrase best expresses it, that
as rough as March was it has "nothing
on April."Mr. George M. Bartlett of South
Eliot had an ill turn on Friday night.
He was reported more comfortable
Sunday morning.Mrs. Willard Raitt who is at Dr.
King's hospital, Portland, is reported
as doing as well as can be expected.
Roy De Coff substituted for Rudolph
La Pointe at Spence's Switch Satur-
day night.Abner Stringer has finished press-
ing hay at the Bartlett Farms and
Raymond Clark's and is at present
pressing for Will Hobbs.The W. C. T. U. met with Mrs.
Henry Staples on Friday afternoon.
Miss Anna Vinton who has been
spending a short vacation as the guest
of Elizabeth Bartlett returned to Bos-
ton Sunday evening.Mrs. Ella Kennard arrived home on
Saturday after spending the winter in
Florida.The death of Miss Hannah Fernald
occurred on Monday morning at an
early hour of pneumonia, aged 81
years. She was a very estimable woman
whose only errand outside of
her home was that of mercy, to admin-
ister to the sick or suffering. She
was of quiet and retiring disposition.A brother, Frederick, and three nieces
survive. Mrs. Albert Spence of Rich-
ards avenue, Portsmouth, and Misses
Anna and Alice Hodgdon, both school
teachers in Somersworth, N. H.
There is much illness of grippe and
pneumonia reported.Dr. J. L. M. Willis was able to be
downstairs on Monday, after several
days' illness.

pleasantly entertained by Mrs. and
Miss Florence Marden at their home
on Washington avenue on Monday
evening, with twenty-one members
present. Following a short business
meeting, Miss Agnes M. Brown gave
a talk on "The Camp Fire Movement."
Refreshments were served by the host-
esses.Mrs. Alfred Philbrick will entertain
the club on the first Monday evening

Wrecked By Fire Early
Today.Adams, Mass., April 8—The four
story brick Collins block on Park
street, the best business block in the
town was badly damaged by the worst
fire that Adams has ever had. The
block was occupied by four banks on
the ground floor and the offices on the
three upper stories were occupied by
professional men.The loss is estimated at about
\$10,000.MAYOR-ELECT IS
OF N. H. STOCKChicago Chief Executive a
Descendant of Former
Exeter Resident.The election of William Hale
Thompson as Mayor of Chicago is of
local interest from the fact that he is
a grandson of the late Stephen P.
Gale, who went from Exeter to Chi-
cago in its infancy and for seventy
years or more was identified with its
business and financial interests.The mayor-elect is a son of the late
born in Durham and was a member of
the class of 1851 at Phillips Exeter.

RESULTS THAT REMAIN

Are Appreciated By Portsmouth Peo-
ple.Thousands who suffer from back-
ache and kidney complaint have tried
one remedy after another, finding only
temporary benefit. This is discourag-
ing, but there is one kidney medicine
that has earned a reputation for last-
ing results and there is plenty
proof of its merit right here in Port-
smouth.Here is the testimony of one who
used Doan's Kidney Pills years ago,
and now makes his testimony even
stronger.Mrs. Arthur M. Morrison, 50 Gate
St., Portsmouth, says: "I had pains
in my back and sides. My kidneys
were weak and often I had nervous
and dizzy spells. I saw Doan's Kidney
Pills advertised and used some. It
wasn't long before they completely
cured me. The cure has been per-
manent. You may continue publishing
the endorsement I gave Doan's Kidney
Pills before."Price 50c, at all dealers. Don't

PURITY OATS agree with everybody. The Purity Process gets rid
of all dust, hulls, shorts and other waste. The Purity Process per-
fectly sterilizes each flake. The Purity Process slightly parches and
tosts the flakes, producing a wonderful flavor, and making each
flake so soluble that it will dissolve dry and uncooked
in the mouth. Purity Oats are readily digested.
